Revised August 2019
Dear Site Supervisor,

Mental health professionals who supervise the Texas A&M University-Corpus Christi practicum and internship students during the field experience play a crucial role in the training of future counselors. Whether our counselors-in-training aspire to work primarily in areas involving clinical mental health; addictions; school; or marriage, couple, and family, they benefit greatly from the supervision and opportunities in the community that are possible because of you.

Accreditation, licensure, and certification standards require that counseling students have some experience in the real world and be supervised by qualified community mental health providers in addition to university instructors. The Counseling and Educational Psychology faculty of Texas A&M University-Corpus Christi appreciates your willingness both to provide a field experience site and to share your knowledge and experience with our students. We hope that, in return, they provide a valuable service to your agency, institution, or school.

The Field Site Supervisor’s Manual is intended to guide the site supervisory process and clarify the roles and responsibilities of the student, university, university instructor, site, and site supervisor. Your ideas and suggestions are welcome and will assist us to continually improve the quality of the field experience and the efficiency of our working relationship.

Sincerely,

Marvarene Oliver, Ed.D., LPC-S, LMFT-S

Introduction to Practicum/Internship

One of the primary experiences in the master’s program in Counseling and Educational Psychology is the clinical coursework embodied in practicum and internship. These courses require students to utilize the knowledge and skills gained in the classroom as they provide services to clients or students. The primary objective of the courses is to provide experiences, consultation, and supervision to help students become effective counselors.

The practicum/internship manual serves as a resource for the field site experience. All forms required for practicum and internship are included. General syllabi, also included, provide information about broad requirements; however, individual instructors will provide specific schedules and assignments for their classes. Students are responsible for familiarizing themselves with the information in this manual and for abiding by the requirements and policies set forth.

Students’ faculty advisors have the primary responsibility for assisting them in planning the completion of requirements for the Master’s Degrees in Professional Counseling and School Counseling. The Texas A&M University-Corpus Christi Graduate Catalog supersedes any information in this manual.

Practicum – Internship Coordinators
Dr. Marvarene Oliver
Dr. Michelle Hunnicutt Hollenbaugh

The Practicum/Internship Coordinators have clearly defined responsibilities that include: admissions to practicum and internships (checking pre-requisites and academic/personal status); overseeing practicum and internship policies, ethical practices, and adherence to CACREP standards; coordinating and approving practicum and internship site supervisors for students; coordinating and meeting with practicum and internship professors; providing an orientation to new practicum students and professors; and coordinating and providing supervision training to site supervisors. Dr. Oliver and Dr. Hollenbaugh report to the Department Chair as related to the above set of responsibilities.

Required Hours for Practicum/Internship

Completion of required practicum and internship courses require a minimum of 700 hours, with 280 of those being direct hours with clients. Specifically, practicum requires 100 hours, with a minimum of 40 of those being direct hours. Internship requires 600, with a minimum of 240 being direct hours. Internship hours are obtained across two semesters. The Practicum and Internship Logs provide specific examples of what hours are considered direct and indirect.
Internship students are able to include internship class meetings/supervision in the total number of hours; however, practicum students are not.

All site supervisors are required to have at least a master’s degree in counseling or a related field, appropriate licensure or certification for their field, and at least two years of pertinent experience in the specialty area in which the student is enrolled. In addition, supervisors must be knowledgeable about the program’s expectations, requirements, and evaluation procedures and have relevant training in supervision.

While students are free to obtain their practicum experience in any appropriate setting, students must obtain internship experience in settings appropriate to their emphasis areas. Thus, students in the clinical mental health emphasis will complete the internship in a setting that offers clinical mental health services, while students in the school counseling emphasis must complete the internship hours primarily in a school setting. Students pursing the marriage, couple, and family counseling program should provide services with a systemic focus during their internships, and at least 80 hours (1/3) of the total 240 direct hours must be work with couples, families, and parent-child relationships. Students who are in the addictions program emphasis must obtain at least half of their overall internship hours in a setting serving clients with substance abuse concerns. Students pursuing the LCDC should be aware of specific LCDC requirements for areas in which hours are obtained (i.e., clinical evaluation; treatment planning; referral; service coordination; counseling; client, family, and community education; documentation; and, professional and ethical responsibilities) and should keep separate documentation logs that capture information required for that licensure.

**Responsibilities of the Agency, Institution, or School Site**

1. The site shall provide orientation for the student in regard to site's purpose, function, and administrative procedures.
2. The site shall be responsible for the assignment and administrative supervision of tasks within the student's capabilities which allows him/her to use and further develop her/his counseling knowledge, attitudes, values, and skills. This will include direct work with clients, relationships with staff and other agencies or schools, and attendance at staff meetings.
3. The site will provide space, equipment, and supplies as needed by the student to carry out site assignments.
4. The site will allow the student to gain a variety of supervised experiences.
5. With written permission of the clients involved, the site will allow the student to obtain audio and/or videotapes for supervision of the student’s interactions with clients.
6. The assigned site supervisor will provide one hour per week of individual or triadic supervision for the student(s) and be available for consultation.
7. The site will provide adequate informed consent to clients regarding their treatment related to student interns.

**Responsibilities of the Site Supervisor**
1. A site supervisor must have a minimum of a master’s degree in counseling or a related profession, including appropriate certifications and/or licenses.
2. The site supervisor is expected to have a minimum of two years of pertinent professional experience in the program area in which the student is completing clinical instruction.
3. The site supervisor is expected to have knowledge of the counseling program’s expectations, requirements, and evaluation procedures for students. The university is responsible for providing the site supervisor with the Field Site Supervisor’s Manual as well as on-going training.
4. The site supervisor is expected to be knowledgeable about counseling supervisory processes and practices.
5. The site supervisor will orient the student to the site and specific duties.
6. The site supervisor will meet with the student one hour weekly, supervise the student's performance, and sign the student's weekly log via Tevera.
7. The site supervisor will provide supervision in accordance with the guidelines established by the site for all regular personnel and the guidelines for supervisors as recommended by the American Counseling Association (ACA) located at http://aca.convio.net/site/PageServer?pagename=resources_ethics
8. The site supervisor will submit a mid-semester and final evaluation of the student's knowledge, skills, and personal and professional development during each semester of the practicum and internship experience. The practicum or internship grade will reflect the evaluation of both the on-site and university supervisor, with the university supervisor having the final responsibility for grade assignment.
9. The site supervisor is strongly encouraged to initiate contact with the university instructor, or Practicum and Internship Coordinator as soon as there are any questions or concerns regarding the student, expectations, or responsibilities.
10. The site supervisor must be on site when the student is seeing clients. If the supervisor is off site there must be another licensed or responsible individual who can be available for the student if needed.

Responsibilities of the University

The TAMU-CC Counseling & Educational Psychology program will:

1. Provide a syllabus describing the specific practicum/internship requirements.
2. Provide one hour of individual or triadic supervision each week for practicum.
3. Provide an average of 1.5 hours of weekly group supervision for practicum and internship.
4. Provide additional experiences and resources including professional seminars, audio/videotaping, live supervision, and referral source information for client and student intern needs as appropriate.
5. Provide regular opportunities for supervision training for site supervisors
6. Maintain periodic contact with the site supervisor to discuss the student's progress, including no less than one on-site visit each semester by a university internship supervisor for the purpose of meeting with the site supervisor.
7. Counsel, teach, train, and supervise using guidelines recommended by the American Counseling Association (ACA) located at https://www.counseling.org/knowledge-center/ethics
8. Maintain appropriate records for registration and grading. All documentation related to hours and evaluations in practicum and internship are maintained via an online platform, Tevera. Site supervisors can be added to Tevera via the application process (students can suggest a new site and new supervisor) and they can also be added manual as needed during the semester (contact Dr. Hollenbaugh at michelle.hollenbaugh@tamucc.edu if this is needed). When a supervisor is added he or she will receive an email prompting him/her to register in the system. Supervisors can see tutorials and information on using Tevera here: https://tevera.com/field-instructor-journey/

Responsibilities of the Student

1. The counseling student is responsible for contacting sites and securing a practicum/internship site. Faculty advising and a site fair are available to assist counseling students in the process.
2. The student is responsible for making sure that the site supervisor has access to the necessary forms in Tevera and that the forms are completed on time.
3. The student is responsible for maintaining her or her own professional liability insurance. The student will provide the department with verification of insurance with the practicum/internship application.
4. The student will be at the agreed upon location at times scheduled by the site supervisor and student.
5. The student will fulfill assigned duties and responsibilities as agreed on by the student, site supervisor, and the university instructor.
6. The student will attend an average of 1.5 hours of weekly group supervision meetings with the university instructor at TAMU-CC.
7. The practicum (CNEP 5397) student will attend 1 hour of weekly individual/triadic supervision meetings with university instructor or assigned supervisor at TAMU-CC.
8. Both practicum and internship (CNEP 5397 & CNEP 5698) students are required to attend 1 hour of weekly individual/triadic supervision meetings with the site supervisor.
9. The student will complete assignments as described in the class syllabus.
10. The student will keep a weekly log of time spent that will be reviewed and signed by site supervisor and university instructor via Tevera.
11. The student will read the ACA Code of Ethics and use as a guide for ethical and professional practice. https://www.counseling.org/knowledge-center/ethics

Timeline of Activities for Site Supervisors

The practicum/internship student is responsible for knowing requirements and ensuring that all practicum and internship requirements are met and procedures are followed.

The Semester Before Practicum/Internship is to Begin

1. Interview and consider prospective interns who call and apply for placement.
2. Inform student of training, background checks, or other requirements they will need to complete prior to beginning their practicum/internship. If the student is not required to attain a criminal background check via the site, he or she must attain one through TAMU-CC Career Services (see practicum/internship application forms).

2. Sign Application for Practicum/Internship form if applicant is accepted for placement. This will be submitted via Tevera.

**Before or Immediately upon Practicum/Internship Experience Beginning**

Sign Practicum or Internship Field Site Supervisor Agreement (in Tevera).

**During Practicum or Internship Experience**

1. Meet with the practicum/internship student weekly for one hour of individual supervision.
2. Review and sign the intern's Weekly Log to verify hours and activities.
3. At mid-semester, complete, review with student, and sign Mid-Semester Evaluation of Practicum/Internship Student form to university instructor.
4. Meet with the intern's university instructor for a brief conference. The university instructor or the intern will arrange this meeting.

**At the Conclusion of Practicum/Internship**

1. Complete, review with student, and sign Final Evaluation of Practicum/Internship Student.
2. Consult with university instructor about final evaluation as desired.
3. Review and sign intern's final Weekly Log to verify cumulative hours and activities.

**Supervision Training**

Twice a year, the Counseling and Educational Psychology Department offers training in supervision. The training provides one hour of CEU in supervision through Chi Sigma Iota. All site supervisors for our program are required by the Council for Accreditation of Counseling and Related Educational Programs to have training in supervision. Thus, we provide on-going training opportunities for those who generously provide site supervision for our students. Training is provided by one of the faculty members who regularly teaches practicum or internship. The hour-and-a-half meeting also provides the opportunity for site supervisors to share the wealth of information they have with each other, to find out about any changes in departmental goals and objectives, and to network.

**Additional Information**

While our counselors-in-training have all the necessary forms for site supervisors in their Practicum/Internship Handbooks, they are included here, as well. Also included are the Student Review and Retention Policy and the Student Competency Evaluation that are used by faculty members with students we believe would benefit from or require a formal remediation process. At any time, a site supervisor can contact a counselor-in-training’s faculty instructor, Marvarene Oliver, or Michelle Hollenbaugh, Coordinators of Practicum/Internship, to discuss student issues that perhaps should be addressed via the Student Competency Evaluation.
In addition, standard syllabi for practicum and for internship are included. In the syllabi, you will see a Professional Issues and Behavior Rating Scale that is completed on each practicum/internship student every semester they are enrolled in these courses. While designed for faculty members, site supervisors are welcome to use them, either as a way to clarify discussion with a student who is having difficulty or to provide feedback to the faculty instructor about a student who causes concern.
The Family Educational Rights and Privacy Act of 1974 (FERPA), generally prohibits the disclosure of personally identifiable information derived from education records to a third party without the student’s signed, written consent. There are a number of exceptions to FERPA's prohibition against non-consensual disclosure, where schools are permitted to disclose without consent, though they are not required to do so.

A criminal background check is required for admission to practicum/internship. The resulting report becomes part of other student education records and is subject to FERPA regulations. Specified members of the Counseling and Educational Psychology Department faculty, upon receipt of a report of an affirmative criminal background, will meet with the prospective practicum/internship student and if warranted by the background information, may release the report to the appropriate site supervisor.

Please fill in all of the blanks as they apply. Print and sign your name and include the date you sign the authorization form. Return the form to the department that has the information you would like the University to release (the Counseling and Educational Psychology Department).

I, _________________________________, hereby voluntarily authorize faculty in the Department of Counseling and Educational Psychology to provide the criminal background check to the following individual(s):

Name       Site

Name       Site

Name       Site

I understand this authorization will remain in effect from the date it is signed until revoked by me, in writing, and delivered to the Department(s) identified above.

I understand I have the right to refuse to sign this form and that I may revoke my consent, in writing, at any time (except to the extent that the information has already been released). I further understand that refusal to allow disclosure may impact my ability to complete my practicum/internship experience at certain sites.

Student Name (Printed)  Student ID #

Student Signature  Date
**Student Review, Remediation, Retention, and Dismissal Policy**

In accordance with CACREP accreditation recommendations, students are reviewed and monitored by departmental faculty during their matriculation in the CNEP programs. When a student fails to exhibit behaviors consistent with the expectations of professionals being prepared as counselors who work with a multitude of clients from diverse backgrounds, the *Counseling Student Competency Evaluation Form* (Appendix A) is utilized. The *Professional Issues and Behavior Rating Scale* (Appendix C) may also be used as part of this process. This competency evaluation is used by faculty when a concern is raised about a student’s behavior within a class or during an activity sponsored by the TAMUCC College of Education and Human Development. This form may be used when the student engages in conduct, irrespective of its time or location, which raises substantial questions about the student’s ability to perform his or her role as a professional counselor. The purpose of the process is to help monitor the profession and to minimize the possibility of harm to future clients and the public.

If, in the professional judgment of the program faculty a student’s behavior is deemed substandard, unethical, illegal, and/or professionally unbecoming at any time during the course of training (including course work, practica, and internships), the following actions may be taken:

1. **Consultation:** The instructor of record meets with the student to address issues/concerns. When an instructor identifies an issue related to student competency, the instructor of record may initiate a Student Competency Evaluation and consult with the student. If the instructor and student agree, no further action is required, and the instructor will submit documentation of the consultation to the student’s file.

2. **Probation and Remediation:** The student will be placed on probation and the student and the faculty advisor, with the approval of the Department of Counseling and Educational Psychology Review and Retention Committee, will develop a remediation plan. This plan will be in writing and will be signed by both the student and the faculty advisor. A copy of the plan will be provided to the student and a copy will be placed in the student’s department file.

3. **Voluntary Resignation:** Recommend the student resign from the program.

4. **Dismissal from the Program:** If a student’s unacceptable professional and personal behaviors are deemed severe enough, the Department of Counseling and Educational Psychology Review and Retention Committee will forward an immediate dismissal recommendation to the Graduate School.

**Probation and Remediation Procedures**

If the program faculty determines the student can benefit from a period of remediation, the following steps will be taken:

1. The instructor of record will meet with the student and address the concerning issues. If no resolution can be met, the student will be referred to the Department of Counseling and Educational Psychology Review and Retention Committee.

2. The Department of Counseling and Educational Psychology Review and Retention Committee will meet with the student and inform the student of the identified problem areas noted by the
faculty. The Department of Counseling and Educational Psychology Retention Committee is an ad-hoc committee composed of three faculty members from the Department of Educational Psychology, appointed by the Chair of the Department of Counseling and Educational Psychology. The referring instructor will not serve on this committee.

3. A meeting between the student and the Department of Counseling and Educational Psychology Review and Retention Committee will take place to discuss presenting concerns. The student will have the opportunity to present issues and concerns to the Review and Retention Committee.

4. The student and the Department of Counseling and Education Psychology Review and Retention Committee will develop a plan for remediation of the student’s behavior. This plan will (a) behaviorally define the student’s problem areas, (b) identify the expected behavior patterns or goals, (c) specify possible methods that could be used to reach these goals, which could include personal counseling, group growth experiences, self-structured behavioral change, and/or additional academic course work or practica, field experiences, etc., (d) designate a way in which the goal attainments will be demonstrated, (e) designate a date for goal attainment or reevaluation.

5. If there is no agreement between the student and the Department of Counseling and Education Psychology Review and Retention Committee, the committee will forward the recommendation to the Department Chair. The student will have a right to appeal the decision with the Department Chair.

6. A copy of the approved plan will be provided to the student and a copy will be retained in the student’s file in the department office. With respect to the meeting, a remediation plan will be documented.

7. Upon completion of the remediation plan or assigned date, the student will request from the faculty with whom the student has been working or has had classes, an evaluation of his or her progress on the review feedback forms. The completed forms will be returned to the faculty advisor by the evaluating faculty.

8. At the Department of Counseling and Education Psychology Retention Committee meeting in which the student’s progress, or lack thereof, is reviewed, the committee will recommend one of these four options:

   a. **Continuation in the program:** The specified concerns no longer present a significant problem and the student is allowed to continue in the program.

   b. **Continued probation and remediation:** If progress is documented on the first evaluation, an updated behavioral plan is prepared, and a date is set for another reevaluation at the program faculty’s discretion.

   c. **Voluntary resignation:** Recommend the student resign from the program.

   d. **Dismissal from the program:** If the student has failed to attain the behavioral goals and there is no expectation that he or she can reasonably attain them in the near future, the student will be dismissed from the program.
9. If the recommendation from the committee is 8.a or 8.b, the student will be notified in writing, by the Chair of the Department of Counseling and Education Psychology Review and Retention Committee, of the reevaluation decision.

10. If the recommendation from the committee is 8.c or 8.d, the committee will bring the issues to the faculty meeting and will follow the TAMUCC policy and procedure for academic dismissal in the graduate student catalog.
Consent for Audio-Visual Recording

I hereby agree to allow taping of my (or my child’s) session with _________________.

(name of counselor)

This taping will take place at _________________.

(location)

during the ________________ semester of 20 ___.

This agreement will remain in effect until _________________.

(month, day, year)

I understand that these tapes are reviewed during in-class group supervision and individual
supervision directed by my counselor’s instructor. I understand that counselor trainee responses
may be used for purposes of research; however, under no circumstances will my (or my child’s)
responses or information be used for research or any other purpose except supervision without
specific written permission from me. These recordings will be treated with professional respect
and courtesy, and they will be erased no later than the end of the semester.

SIGNATURES:

________________________________________________________________________

Client (or Parent/guardian if client is under 18 years of age) Date

________________________________________________________________________

Practicum Student/Intern Date

Note: A copy must be signed by each person participating for the counseling session to be
recorded. The parent or legal guardian must sign a copy for each participating minor. Form is to
be used if supervision site does not have release form. Completed form should be placed in
client’s file at the supervision site. This form is not to be placed in counselor intern’s
university file.
Texas A&M University-Corpus Christi
CNEP 5397 Practicum

Course Description

CNEP 5397, Practicum, 3 semester hours: A minimum of 100 clock hours of supervised counseling experiences, including 40 hours of direct service with clients. Clinical setting must be approved by the Clinical Coordinator and be appropriate to the student’s emphasis. The semester prior to enrollment the student must complete the practicum application process. Prerequisites: A minimum of 12 semester hours of core counseling including CNEP 5304, 5308, 5381, 5327, and 5384 must be completed.

Rationale

This course is designed to provide a supportive, structured learning environment for acquiring clinical experience and on-the-job training. The practicum is a time to build a framework of new professional counseling skills on a foundation of the material learned in the program courses, life experiences, and personal values. It is a time to develop and enhance professional competencies.

Instructional Methods

Practicum is a field experience. The in-class work is group supervision, which will include presentation of tapes using audio- and video-tapes as well as case presentations and discussion. As dictated by the needs of the supervision group, some demonstrations and training videos may be used, in addition to presentation of didactic material.

Learning Objectives

This course is designed to meet 2016 CACREP professional counseling identity standards (Section 2) for all entry-level and doctoral-level programs. The following standards represent the learning objectives established for this course. Upon completion of the course, students will be knowledgeable of:

- CACREP II-F-1-k: strategies for personal and professional self-evaluation and implications for practice. [Students will complete this objective by completing an Individual Development Plan to assess their own personal and professional development.]

- CACREP II-F-2-f: help-seeking behaviors of diverse clients. [Students will complete this objective by achieving a score of 80% or higher on their tape presentations and also earn a rating of “good” or above on the final evaluations by site supervisor and university]
CACREP II-F-2-h: strategies for identifying and eliminating barriers, prejudices, and processes of intentional and unintentional oppression and discrimination. [Students will complete this objective by achieving a score of 80% or higher on their tape presentations and also earn a rating of “good” or above on the final evaluations by site supervisor and university instructor]

CACREP Standard II-F-5-g: essential interviewing, counseling, and case conceptualization skills [Students will complete this objective by achieving a score of 80% or higher on their tape presentations and also earn a rating of “good” or above on the final evaluations by site supervisor and university instructor]

CACREP Standard II-F-5-h: developmentally relevant counseling treatment or intervention plans [Students will complete this objective by achieving a score of 80% or higher on their tape presentations, “adequate” or above on relevant clinical items on final site and university evaluations.]

CACREP Standard II-F-5-k: strategies to promote client understanding of and access to a variety of community-based resources [Students will earn a rating of “good” or above on relevant items on the mid-semester and final evaluations by the site supervisor]

CACREP Standard II-F-5-l: suicide prevention models and strategies [Students will earn a rating of “good” or higher on the lethality assessment rubric.]

CACREP Standard II-F-7-c: procedures for assessing risk of aggression or danger to others, self-inflicted harm, or suicide [Students will earn a rating of “good” or higher on the lethality assessment rubric.]

Major Course Requirements

1) Practicum Hours

- Students Complete 100 hours in approved practicum setting, at least 40 hours of which are direct counseling services with clients.
- The other 60 hours are indirect counseling services associated with counseling including, but not limited to record keeping and session preparation.

2) Taping and Case Presentations
Students are required to submit two audio/videotapes of clinical work in practicum setting with a real, live client who consented to the taping. One additional tape in which students will role play conducting a lethality assessment is also required. Each of the three tapes will be a minimum of 30 minutes long and no longer than 60 minutes. You will be turning your tapes into the instructor, so you must provide an encrypted/password-protected flash drive to protect client confidentiality. Below are the requirements for each tape are below:

- **Tape #1:**
  Students will present a 10-minute segment of the session along with a PowerPoint case presentation. No identifying information is to be included in this presentation. Students will also complete the Student Evaluation and the Tape Rating Scale. There is a case presentation template available on Blackboard. The presentation, evaluation, and rating scale all must be uploaded to Blackboard prior to the class prior to your presentation. Do not upload your video to Blackboard. Students must provide an encrypted/password-protected flash drive with their entire session for instructor to review outside of class.

- **Tape #2:**
  Students will present a 10-minute segment of this session along with a PowerPoint case presentation. No identifying information is to be included in this presentation. Students will complete the Tape Rating Scale and a transcript of the 10-minute section of the tape. The case presentation, rating scale, and transcript should be uploaded to Blackboard prior to your presentation. Students must provide an encrypted/password-protected flash drive with their entire session for instructor to review outside of class.

- **Lethality Assessment:**
  Students will select a partner in class to complete a minimum 30-minute lethality assessment role play. Each student will role play both the counselor conducting the assessment and the client in crisis. The tape will focus on suicide or harm-to-others assessment and intervention. Students will submit a 2-3 page reflective paper concerning the experience of conducting the assessment. This role play will count as one indirect training hour. Students must provide an encrypted/password-protected flash drive with their entire session for instructor to review outside of class.

While students are required to submit the minimum three tapes above, the instructor may require the student to submit additional tapes for viewing of specific counseling skills outside of class. As an added note, students are responsible for maintaining the confidentiality of all client notes and information. All client documents are confidential. Only first names or initials of clients should appear on all forms/case notes/logs, except for taping consent forms. Students must maintain confidentiality of all case discussions. This extends to classroom discussions and viewing or listening to recorded counseling sessions, and students are bound by the same legal and ethical considerations as if the client talked directly with a counselor. The discussion of cases outside of the classroom settings with persons other than those in the agency of placement, the client, the student’s supervisors, or the faculty member are grounds for dismissal from the class with a failing
grade. Any questions that may arise regarding confidentiality should be directed to the faculty member.

3) Supervision

Students are required to be active participants in several types of supervision: university group supervision, individual/triadic site supervision, and individual doctoral supervision.

- For university group supervision, students are required to attain a minimum of 1.5 hours per week of supervision.
- For site supervision, students are expected to participate in a minimum of one hour per week of triadic/individual supervision with their designated supervisors.
- Doctoral supervision requires a minimum of 10 individual meetings with your doctoral supervisor.

All of these hours will be documented on your weekly time logs, but do not count towards your 100-hour practicum total. Both doctoral and site supervisors will be conducting mid-semester and final evaluations on your skills and dispositions. It is your responsibility to remind your supervisors of the deadlines and ensure that your evaluations are completed on-time. It is the responsibility of the student to schedule and obtain sufficient individual university supervision, which will generally be provided by a doctoral student supervisor. Please be aware that you cannot pass practicum, nor can you receive an incomplete, for failure to obtain sufficient individual supervision.

4) Professional Meeting Synopsis

Students are expected to attend one professional meeting during the semester and submit a synopsis of the meeting to the instructor. This synopsis must be 2-3 pages, formatted according to APA 6th edition style, and include thoughtful consideration of the content presented during the meeting.

5) Forms and Evaluations

- Students must complete all required forms, including mid- and final evaluations from site supervisors, via Tevera. Forms must be signed and submitted when they are required. Chronic late submission of forms, including logs, will be addressed in your evaluations, including the Professional Issues and Behavior Evaluation.

6) Ethics and Professional Behavior

- Students must abide by the guidelines and policies described in the Internship
Manual and departmental Handbook, as well as by appropriate ethical standards as cited in the ACA, ASCA, TEA, TSBEP, and/or TSBEMFT Codes of Ethics as appropriate.

Evaluation and Point Allocation

Evaluation

Grade assignment is based on your performance in all aspects of the class during the entire semester. This includes performance assessments based on formal evaluations by your site supervisor, individual university supervisor, and university instructor. This also includes assessment by your university instructor on the Professional Issues and Behavior Rating Scale (available in Practicum and Internship Handbook). A student who is asked to leave a practicum site for unethical or unprofessional behavior may receive a failing grade and may be asked to retake certain courses and/or seek personal counseling.

Students will submit audio or videotapes of clinical work as required by the instructor. When the instructor and student cannot arrange for audio/video sessions at the practicum/internship site, the student must seek a secondary practicum/internship site where audio/video taping will be permitted. Some counseling sessions of each student will be directly observed by supervisors during each semester. Please note: You must obtain all supervision hours, both group and individual, required during a semester in order to receive a grade in this course. Failure to complete all supervision requirements is not grounds for an incomplete.

Each student will attend an average of 1.5 hours of weekly group supervision and 1 hour of weekly individual university/doctoral supervision as well as weekly supervision with the site supervisor. Students making a grade of C must repeat the class in order to progress to internship.

Point Allocation

Up until this point in the program, students have functioned primarily in the student role. During practicum, however, the student is expected to function as a counselor trainee. This involves many things, including following the rules and regulations governing the practicum site, engaging in professional dress, demeanor, and behaviors, and putting the ACA Code of Ethics into practice in every interaction. It also involves engaging in the process of becoming a reflective practitioner. A reflective practitioner uses reflective thinking and sound decision making skills that are well-founded in established research regarding the effective, efficient practice of counseling.

We use a team approach to teaching practicum. We see the practicum experience as a collaborative one between the student, the on-site supervisor, the doctoral student supervisor, and the practicum faculty member. As such, the student, both supervisors (on-site and doctoral), and the faculty member will all be part of the evaluation process.

Traditional “grades” on assignments are not relevant to this course. Students will earn grades based on the following:

1) Students who adequately complete all class requirements, including demonstration of good
to excellent competency in counseling skills, will earn the grade of A. Assignments, time logs, and documentation must be submitted on time. Assignments must be in APA 6th Edition format. Students who do not demonstrate this level of competency in basic counseling skills or adequate professional behavior will not earn an A, regardless of other class assignment performance.

To note, excellent competency in counseling skills requires the student’s consistent ability to demonstrate: knowledge of the population that is the focus of practicum, beginning helping skills, ability to express and utilize empathy in session, knowledge of client dynamic, and the ability to appropriately reflect and respond to feedback from instructors and supervisors.

2) Students who demonstrate adequate competency in counseling skills, and who satisfactorily complete all other class requirements, will earn the grade of B. Work must be submitted on time.

3) Students who demonstrate adequate competency in counseling skills but who do not complete one or more of the other assignments will earn a grade of C. Work must be submitted on time. Students who do not demonstrate adequate competency in counseling skills will earn a grade of C regardless of completion of other assignments. Students who earn a grade of C must re-take the practicum class before moving on to internship.

Note: In order to receive a grade, all required hours, both indirect and direct, must be completed. Likewise, all supervision hours, both group and individual, must be completed. In addition, all forms must be submitted in order to receive a grade. Students will not be granted an incomplete for failure to submit forms or failure to complete required supervision hours, and will not pass the course.

Required or Recommended Readings

**Textbook:**

The textbook adopted for this course is the TAMU-CC Practicum/Internship Manual. It is available on the departmental website or via Blackboard for your course.

Additionally, students are also required to purchase the software system called Tevera as the method of documentation. The fee for Tevera is $100. This software system will be utilized throughout both internships and students will have lifetime access to their materials.

**Recommended or supplemental readings:**

State Adopted Proficiencies for School Counselors

Standard I Learner-Centered Knowledge: The certified school counselor has a broad knowledge base.

Standard II Learner-Centered Skills: The certified school counselor applies the knowledge base to promote the educational, personal, social, and career development of the learner.

Standard III Learner-Centered Process: The certified school counselor participates in the development, monitoring, and evaluation of a developmental school guidance and counseling program that promotes learners’ knowledge, skills, motivation, and personal growth.

Standard IV Learner-Centered Equity and Excellence for All Learners: The certified school counselor promotes academic success for all learners by acknowledging, respecting, and responding to diversity while building on similarities that bond all people.

Standard V Learner-Centered Communications: The certified school counselor, an advocate for all students and the school, demonstrates effective professional and interpersonal communication skills.

Standard VI Learner-Centered Professional Development: The certified school counselor continues professional development, demonstrating a commitment to learn, to improve the profession, and to model professional ethics and personal integrity.

TExES Competencies

Competency 001 (Human Development): The school counselor understands processes of human development and applies this knowledge to provide a developmental guidance program, including counseling services that meets the needs of all students.

Competency 002 (Student Diversity): The school counselor understands human diversity and applies this knowledge to ensure that the developmental guidance and counseling program is responsive to all students.

Competency 003 (Factors Affecting Students): The school counselor understands factors that may affect students' development and school achievement and applies this knowledge to promote students' ability to achieve their potential.
**Competency 004 (Program Management):** The school counselor understands how to plan, implement, and evaluate a developmental guidance program, including counseling services that promotes all students' success.

**Competency 005 (Developmental Guidance Program):** The school counselor knows how to provide a comprehensive developmental guidance program that promotes all students' personal growth and development.

**Competency 006 (Counseling):** The school counselor understands how to provide effective counseling services to individuals and small groups.

**Competency 007 (Assessment):** The school counselor understands principles of assessment and is able to use assessment results to identify students' strengths and needs, monitor progress, and engage in planning to promote school success.

**Competency 008 (Collaboration with Families):** The school counselor knows how to communicate effectively with families and establish collaborative relationships that enhance work with students.

**Competency 009 (Collaboration with Others in the School and Community):** The school counselor understands how to work collaboratively with other professionals and with community members to promote positive change and to facilitate student learning.

**Competency 010 (Professionalism):** The school counselor understands and complies with ethical, legal, and professional standards relevant to the profession.

**Course Policies**

**Communication**
Each TAMUCC student has access to an individual e-mail account assigned to them by the university. This is the primary method through which I will communicate with you throughout the semester. At the beginning of the course, students should make sure they have activated their account and make plans to check the account regularly. Students can expect a response to their questions from me within 48 hours (excluding weekends & university-recognized holidays).

**Late Submissions of Student Work**
Late assignments will be accepted up to one week late for a reduced letter grade. After one week late, assignments will not be accepted and you will receive a zero. Chapter reading quizzes and discussion board posts cannot be made up. Most of your assignments will be submitted through Blackboard. It is not an acceptable excuse to say you thought it uploaded when it didn’t. You will be able to see if the assignment attached/uploaded correctly. In the event that there is a glitch and Blackboard is not uploading your assignment properly, it is still your responsibility to email me with your assignment attached by the assigned due date and time. Additionally, late completion of practicum documentation/paperwork may result in a reduction in grade in the course.

**Academic Integrity and Plagiarism**
University students are expected to conduct themselves in accordance with the highest standards of academic honesty. Academic misconduct for which a student is subject to penalty includes all
forms of cheating, such as illicit possession of examinations or examination materials, forgery, or plagiarism (plagiarism is the presentation of the work of another as one's own work).

Disciplinary action for academic misconduct is the responsibility of the faculty member assigned to the course. The faculty member is charged with assessing the gravity of any case of academic dishonesty, and with giving sanction to any student involved. Penalties that the instructor might possibly apply to individual cases of academic dishonesty include:

- Written reprimand
- Requirement to re-do work in question
- Requirement to submit additional work
- Lowering of grade on work in question
- Assigning grade of "F" to work in question
- Assigning grade of "F' for course
- Recommendation for more severe punishment, such as dismissal from program or University

If the faculty member determines that assigning a grade of "F" to the course is the appropriate penalty and this disciplinary action occurs prior to the deadline for dropping courses, the student forfeits his/her right to drop the course in question.

If the faculty member recommends more severe punishment, such as dismissal from the program or from the University, the faculty member will notify the appropriate chair/college dean, who in turn will notify the Office of Student Affairs. If dismissal from the University is recommended, the Office of Student Affairs will follow its procedure for such cases.

The faculty member must file a record for each case of academic dishonesty, including a description of the disciplinary action taken, along with any materials involved, with his or her college dean, who will forward a copy to the Office of Student Affairs. The office of the academic dean of the college in which the offense took place will maintain records of all cases of academic dishonesty reported for a period of five years. The Office of Student Affairs will also maintain records of such cases for a period of five years. The Office of Student Affairs will inform the Graduate Dean as appropriate.

Any student who has been penalized for academic dishonesty has the right to appeal the judgment or the penalty assessed. Students who wish to appeal an academic dishonesty decision should contact the Office of Student Affairs for guidance on the appropriate steps for initiating the process.

**Attendance**

Students must attend all group supervision hours. Much of the learning occurs in the context of the group interaction; thus, full participation in all aspects of group supervision is expected. If illness or emergency requires an absence, the group supervision time must be made up in another section of group supervision with consent of the instructor involved. Students must be on time and remain for the entire class in order to receive credit for the group supervision hours indicated. All electronic devices must be off. If cell phones must remain on due to on-call status, family demands, etc., they must be on courtesy mode and the instructor must be notified in advance. Do
not answer phone calls except in case of emergency. Absence from the classroom due to telephone calls will result in a loss of group supervision time.

Students are expected to attend and participate in every class session unless there is a valid emergency/reason. Promptness is expected, as is staying for the entire class. Inform the instructor about legitimate reasons for missing class. If part or all of a class is missed, it must be made up by attending group supervision at another time during the semester. If you must make up a group supervision session, you must obtain approval from your instructor as well as the instructor whose supervision group you would like to attend.

Classroom Behavior and Professional Conduct
Texas A&M University-Corpus Christi, as an academic community, requires that each individual respect the needs of others to study and learn in a peaceful atmosphere. Under Article III of the Student Code of Conduct, classroom behavior that interferes with either (a) the instructor’s ability to conduct the class or (b) the ability of other students to profit from the instructional program may be considered a breach of the peace and is subject to disciplinary sanction outlined in article VII of the Student Code of Conduct. Students engaging in unacceptable behavior may be instructed to leave the classroom. This prohibition applies to all instructional forums, including classrooms, electronic classrooms, labs, discussion groups, field trips, etc.

Additionally, students are expected to adhere to the 2014 Code of Ethics of the American Counseling Association. Any behavior that is deemed unethical may be grounds for Student Review and Retention policy procedures to be initiated or for dismissal from the program.

Confidentiality
Participating in group activities involves some level of self-disclosure. A level of trust and openness is needed as a part of the learning process, and it is important that confidentiality be maintained. Confidentiality is a crucial element in the counseling profession and should also be upheld with clients, supervisees, and peers. Any discussion should be conducted in such a manner that persons are protected by the limits of confidentiality. If you wish to share with others outside the class, discuss only your own reactions or experiences and maintain confidentiality regarding other’s input. This is an ethical issue.

Practicum students are responsible for maintaining the confidentiality of all client notes and information. All client documents are confidential. Only first names or initials of clients should appear on all forms/case notes/logs, except for taping consent forms. Students must maintain confidentiality of all case discussions. This extends to classroom discussions and viewing or listening to recorded counseling sessions, and students are bound by the same legal and ethical considerations as if the client talked directly with a counselor. The discussion of cases outside of the classroom settings with persons other than those in the agency of placement, the client, the student’s supervisors, or the faculty member are grounds for dismissal from the class with a failing grade. Any questions that may arise regarding confidentiality should be directed to the faculty member.

Dropping a Class
I hope that you never find it necessary to drop this or any other class. However, events can sometimes occur that make dropping a course necessary or wise. Please consult with your
academic advisor, the Financial Aid Office, and me, before you decide to drop this course. Should dropping the course be the best course of action, you must initiate the process to drop the course by going to the Student Services Center and filling out a course drop form. Just stopping attendance and participation WILL NOT automatically result in your being dropped from the class. Students are responsible for checking the official academic calendar for the last day to drop a course with an automatic grade of “W” for the semester.

Statement of Civility
Texas A&M University-Corpus Christi has a diverse student population that represents the population of the state. The University’s goal is to provide you with a high quality educational experience that is free from repression. To assist in meeting this goal, you are responsible for following the rules of the University, city, state, and federal government. You are expected to behave in a manner that is dignified, respectful, and courteous to all people; regardless of gender, ethnic/racial origin, religious background, age, sexual orientation or disability. Behaviors that infringe on the rights of another individual will not be tolerated.

Grade Appeals
As stated in University Procedure 13.02.99.C2.01, Student Grade Appeal Procedures, a student who believes that he or she has not been held to appropriate academic standards as outlined in the class syllabus, equitable evaluation procedures, or appropriate grading, may appeal the final grade given in the course. The burden of proof is upon the student to demonstrate the appropriateness of the appeal. A student with a complaint about a grade is encouraged to first discuss the matter with the instructor. For complete details, including the responsibilities of the parties involved in the process and the number of days allowed for completing the steps in the process, see University Procedure 13.02.99.C2.01, Student Grade Appeal Procedures. These documents are accessible through the University Rules Web site at http://academicaffairs.tamucc.edu/rules_procedures/. For assistance and/or guidance in the grade appeal process, students may contact the Dean’s office in the college in which the course is taught or the Office of the Provost.

Disabilities Accommodations
The Americans with Disabilities Act (ADA) is a federal anti-discrimination statute that provides comprehensive civil rights protection for persons with disabilities. Among other things, this legislation requires that all students with disabilities be guaranteed a learning environment that provides for reasonable accommodation of their disabilities. If you believe you have a disability requiring an accommodation, please call or visit Disability Services at (361) 825-5816 in Corpus Christi Hall 116.

If you are a returning veteran and are experiencing cognitive and/or physical access issues in the classroom or on campus, please contact Disability Services for assistance at (361) 825-5816.

Statement of Academic Continuity
In the event of an unforeseen adverse event, such as a major hurricane and classes could not be held on the campus of Texas A&M University–Corpus Christi; this course would continue using Blackboard and/or e-mail. In addition, the syllabus and class activities may be modified to allow continuation of the course. Ideally, University facilities (i.e., e-mails, web sites, and Blackboard) will be operational within two days of the closing of the physical campus. However, students need to make certain that the course instructor has a primary and a secondary means of contacting each student.
Syllabus Disclaimer
While the provisions of this syllabus are as accurate and complete as possible, the instructor reserves the right to change any portions of the syllabus. If changes are made to the syllabus, the instructor will inform students regarding such changes. It is also the responsibility of each student to know what changes have been made to the provisions of this syllabus and to successfully complete the requirements of this course. Students are encouraged to ask questions regarding information on the syllabus and course requirements when they receive the syllabus.

This is a fluid syllabus and may be adjusted as time goes on according to our class needs.

**Lethality Assessment Role Play**

Each student will present a reflective self-evaluation of the lethality assessment and intervention role-play (completed in class). The evaluation (2-3 pages in length) must include thoughtful consideration of your skills, what you learned about yourself in the session, and how you felt during the session. This self-evaluation must be in APA style and with your tape of lethality assessment role-play.

This assignment is designed not only for you to show that you can adequately assess for suicide, self-injury, and lethality towards others, but that you can use your beginning counseling skills while doing so. Each tape MUST be at least 30 minutes long and should show an accurate assessment of lethality and engagement in planning to keep the client safe. Other things to consider:

- You may **not** develop a script for this exercise (real counseling isn’t scripted!)
- If you wish, you may create your own lethality assessment form/checklist to use during the session that includes the acronym of your choice. This must be turned in with your written reflection. This DOES NOT mean you may simply use the resources handed out in class.
- At the beginning of your tape, you **must** review confidentiality with the client as if this is your first time seeing them.
- Though you may be using a lethality assessment form, you will also be graded for your ability to use your **beginning counseling skills** while engaging in this assessment. This includes invitational skills, summarizing, and reflecting feeling.
- You must choose **one** of the suicide assessment acronyms from the notes given to you in class and be sure you cover all aspects of that acronym during your tape. Be sure to identify which acronym you used in your written reflection.
**Lethality Assessment Role Play Rubric**

*Students must attain a rating of “good” or better in all three categories to pass this assignment*

<table>

</thead>
<tbody>
<tr>
<td></td>
<td>Student accurately and thoroughly assesses for suicide, self-injury, and homicide risk via direct open and closed questions. Student uses at least one suicide assessment acronym.</td>
<td>Student assesses for suicide, self-injury, and homicide risk, but does not thoroughly cover the material.</td>
<td>Student does not assess for suicide, self-injury, and homicide risk, or does not use a suicide acronym.</td>
</tr>
</tbody>
</table>

| Basic Counseling Skills | Student uses basic counseling skills throughout the session, including accurate and nonjudgmental paraphrases and reflections of feeling. | Student uses basic counseling skills at times, including paraphrases and reflections of feeling | Student does not use basic counseling skills, or use is minimal. Student over emphasizes the use of closed questions or becomes overly directive with advice giving. |

| Reflection Paper | Reflection paper is 2-3 pages and includes thoughtful consideration skills, what the student learned self. Paper is in APA style and turned in on time. | Reflection paper is 2-3 pages long, and includes some consideration of skills, minor issues with APA style. | Paper is not required length, or not turned in on time. Paper does not include thoughtful consideration of skills or what student learned about self. |
Case Presentation Format

Students will receive a PowerPoint template for case presentations which will be posted in the Blackboard section for the course. Each case presentation must include the following:

1. Intern name, site name, and date
2. Background information including age, gender, ethnicity, support systems/strengths, previous treatment, assessments completed (if appropriate), other significant information, presenting problems. *Do not include identifying information*
3. Diagnostic impression including full DSM-5 diagnosis (required for all students) and mental status exam
4. Hypothesis: your ideas/theories about what is going on with client(s) and any ideas you may have about causes.
6. Community resources
7. Multicultural and Social Justice Counseling Competencies (MSJCC): how have you applied the MSJCC to this case?
8. This session: brief description of goals for present session and brief description of what is happening during the clip or audio you will play.
9. What you would like from the group: specific feedback about what we should look for
10. Session: insert your clip or audio at this point in presentation. *Note: Do not upload your presentation with the clip inserted!*
11. Future direction: where you will be going from this point with your client and with your own growth, learning, and development as a counselor.

Case Presentation Rubric

<table>
<thead>
<tr>
<th>Unacceptable</th>
<th>Acceptable</th>
<th>Excellent</th>
</tr>
</thead>
<tbody>
<tr>
<td>Case presentation appears to be hurriedly assembled with little thought or serious consideration to the requirements; one or more than one of the required elements in the case template is missing; information in presentation has significant issues (ex. Treatment goals do not align with theoretical orientation; hypothesis is entirely incorrect); significant spelling/formatting issues</td>
<td>Includes all elements of the excellent presentation, but may not demonstrate as much depth or critical thinking in conceptualizing client issues; theoretical orientation and treatment goals are properly aligned, but may not be best plan of action for presenting client issues; spelling/formatting issues may be present but they are few</td>
<td>Case presentation includes all required elements and reflects thoughtful and thorough consideration in conceptualizing client issues; theoretical orientation and treatment goals are properly aligned and consistent with presenting client issues; there are no spelling/formatting errors</td>
</tr>
</tbody>
</table>
Practicum Student Self-Evaluation of Session (First Tape)

You are expected to evaluate your performance as a counselor for the 1st taped session you present in class. This evaluation is intended to assist you in improving your effectiveness as a counselor. Note that this self-evaluation focuses primarily on the ability to form a therapeutic alliance with your client. This evaluation must be turned in the day the tape is presented in class, and must be in APA format, 2-3 pages long. Each self-evaluation should include the following sections:

1. How did you prepare for the session?
2. How do you feel and what do you think about the session?
3. What did you learn about yourself in this session?
4. Reflect on your developing skills, your strengths, and areas for continued work.
5. Tape Rating Scale (see page 12 of syllabus)

Transcript Format (Second Tape)

The third tape in practicum will be accompanied by the Tape Rating Scale and a transcript of a ten-minute section of your tape presentation. Do not include any identifying information. The transcript should be a verbatim account of the ten minutes. Within the transcription, identify 10 of your responses. These responses must be numbered, and should be your own responses. For these ten, provide a) your intent, b) a thoughtful consideration of how the client responded, and an c) appropriate alternative response. It is unacceptable to write that you were satisfied with your response.

Example:

Client: I always fall apart.
Counselor: I think you’re very well put together.

Intent: My honest reaction. This client has dealt with and is dealing with a lot in her life and I wished to validate her.
Alternative response: “It sounds like things have been difficult, tell me more about that”. I still would have validated her but I also would have opened it up for her to go deeper.

Client: well I wasn’t a little while ago
Consideration of client response: The client is being a little self-deprecating, or she doesn’t believe me. Perhaps it makes her feel good to receive validation that she appears to have things together.
This rating scale includes skills emphasized in practicum and adds skills related to specific interventions, diagnosis, and case conceptualization. Internship students are expected to progress toward “good” or “very good” ratings in each of the skill areas shown.

<table>
<thead>
<tr>
<th>Poor: Skill absent or performance has potential for harm</th>
<th>Unsatisfactory: Some evidence of beginning skill, but insufficient for counseling</th>
<th>Adequate: Evidence of skill but inconsistent in application</th>
<th>Good: Skill generally well performed</th>
<th>Very Good: Skill consistently well performed</th>

Course Description

Internship. A minimum of 600 clock hours of supervised counseling experiences, including 240 hours of direct service with clients. Clinical setting must be approved and appropriate to the student’s emphasis. The semester prior to enrollment, the student must complete the internship application process.

Prerequisites: CNEP 5397 and CNEP 5381. Additional prerequisites include CNEP 5316 for School Counseling program emphasis; CNEP 5319 for the Clinical Mental Health program emphasis; CNEP 5320 and CNEP 5322 for the Marriage, Couple and Family Counseling program emphasis; and, CNEP 5312 and CNEP 5313 for the Addictions program emphasis. Grade assigned will be “credit” (CR) or “no credit” (NC).

Course Requirements for One Semester of Internship (3 semester hours): substantial progress towards 300 clock hours of supervised counseling experiences for Internship I and completion of 600 clock hours of supervised counseling experiences for Internship II, including 240 hours of direct service with clients across a minimum of two semesters of Internship (6 hours credit).

Instructional Methods

Learning objectives will be met using multiple instructional strategies including group discussion; demonstrations; in-class simulations; video exercises and tape review; case studies; and individual, triadic, and/or group supervision.

Learning Objectives

This course is designed to meet 2016 CACREP professional counseling identity standards (Section 2) for all entry-level and doctoral-level programs. The following standards represent the learning objectives established for this course. Upon completion of the course, students will be knowledgeable of:

- CACREP Standard 5-II-F-1-k: strategies for personal and professional self-evaluation and implications for practice. [Students will successfully complete this learning objective by completing the Individual Development Plan to assess their own personal and professional development and earn an “acceptable” or higher on the self-reflection paper as evidenced by the rubric]
• CACREP Standard 5-II-F-1-m: the role of counseling supervision in the profession.  
  [Students will successfully complete this learning objective by earning an “acceptable” or higher on the supervision paper]

• CACREP Standard II-F-2-f: help-seeking behaviors of diverse clients [Students will successfully complete this learning objective by earning an “acceptable” or higher on the case presentation as evidenced by the rubric]

• CACREP Standard 5-II-F-2-h: strategies for identifying and eliminating barriers, prejudices, and processes of intentional and unintentional oppression and discrimination [Students will successfully complete this learning objective by earning an “acceptable” or higher on the case presentation as evidenced by the rubric]

• CACREP Standard 5-II-F-5-c: theories, models, and strategies for understanding and practicing consultation. [Students will successfully complete this learning objective by earning an “acceptable” or higher on the consultation paper as evidenced by the rubric.]

• CACREP Standard 5-II-F-5-g: essential interviewing, counseling, and case conceptualization skills. [Students will successfully complete this learning objective by earning an “acceptable” or higher on their tape presentations as evidenced by the rubric and also earn a rating of “good” or above on the final evaluations by site supervisor and university instructor.]

• CACREP Standard 5-II-F-5-h: developmentally relevant counseling treatment or intervention plans [Students will successfully complete this learning objective by earning an “acceptable” or higher on their case presentations as evidenced by the rubric, “adequate” or above on relevant clinical items on final site and university evaluations.]

• CACREP Standard 5-II-F-5-i: development of measurable outcomes for clients. [Students will successfully complete this learning objective by earning an “acceptable” or higher on their case presentations as evidenced by the rubric.]

• CACREP Standard 5-II-F-5-k: strategies to promote client understanding of and access to a variety of community-based resources. [Students will successfully complete this learning objective by earning a rating of “good” or above on relevant items on the mid-semester and final evaluations by the site supervisor.]

• CACREP Standard 3-J: After successful completion of the practicum, students complete 600 clock hours of supervised counseling internship in roles and settings with clients relevant to their specialty area. [Students will successfully complete this learning objective by earning 600 clock hours of supervised counseling internship as evidenced by submission of time logs that include student, site supervisor, and university supervisor signatures.]
**CACREP Standard 3-K:** Students complete at least 240 clock hours of direct service.  
*Students will successfully complete this learning objective by earning at least 240 clock hours of direct service evidenced by submission of time logs that include student, site supervisor, and university supervisor signatures.*

**CACREP Standard 3-L:** Internship students have weekly interaction with supervisors that averages one hour per week of individual and/or triadic supervision throughout the internship, provided by (1) the site supervisor, (2) counselor education program faculty, or (3) a student supervisor who is under the supervision of a counselor education program faculty member.  
*Students will successfully complete this learning objective as evidenced by submission of time logs that include student, site supervisor, and university supervisor signatures.*

**CACREP Standard 3-M:** Internship students participate in an average of 1.5 hours per week of group supervision on a regular schedule throughout the internship. Group supervision must be provided by a counselor education program faculty member or a student supervisor who is under the supervision of a counselor education program faculty member.  
*Students will successfully complete this learning objective as evidenced by submission of time logs that include student, site supervisor, and university supervisor signatures.*

**Major Course Requirements**

1) Internship Hours

- Students must complete 300 hours for each internship class with a minimum of 120 hours of direct counseling services. In total, students are expected to earn a minimum 600 hours with a minimum 240 direct counseling services over the course of both internships. A **marriage, couple, and family** counseling emphasis requires a systemic focus with a minimum of 80 hours (1/3) of the total 240 direct counseling hours being with couples or family units/subunits. Students pursuing the **addictions program** emphasis must obtain at least half of their combined internship overall hours in a setting serving clients with substance abuse concerns. Students in the addictions program who wish to pursue LCDC licensure are advised to check licensure requirements as a minimum number of hours in specific areas may be required. Please note that additional documentation for specific areas required for the LCDC are your responsibility and will require documentation in addition to the internship log. Students pursuing the **school counseling program emphasis** must complete both internships in a school setting that provides the opportunity to participate in a developmental school counseling program.

2) Taping and Case Presentations

- Students must complete at least two case presentations, including audio/video
recordings of counseling work, utilizing the format described herein. At least one recording must be accompanied by a transcript, using the format provided in this syllabus or, alternatively, provided by the instructor. At least one case presentation for those in the marriage, couple, and family specialty must be with a couple or family unit/subunit. At least one case presentation for those in the addictions specialty must clearly address a substance use-related issue.

3) Supervision

- Each student will attend an average of 1.5 hours per week of group supervision and 1 hour of weekly individual supervision as scheduled by the site supervisor. **Please note:** You must obtain all group supervision hours required during a semester in order to receive a grade in this course. If you must miss a scheduled group supervision, consult with the instructor about how to make up the time. Students who are not making substantial progress toward accumulation of hours should consult with their instructor. Failure to obtain sufficient hours is not, in and of itself, grounds for an incomplete. Students must demonstrate effort to address insufficient hours, including discussion with the instructor during the progression of the course.
- In addition, your regular site supervision must be conducted by the site supervisor who is named and has signed as such on your site supervision form in Tevera. If you must change site supervisors (even if you are remaining at the same site), you must complete, have signed, and submit a new site supervision form to your instructor via Tevera. Failure to do so may result in loss of any hours accrued under the new supervisor. Please notify your instructor immediately if there are times when your supervision will be conducted by another individual (e.g., vacation of the site supervisor) to ensure you are in compliance with standards. If there is one individual at your site who signs all site supervision agreements, your agreement may be co-signed by that individual in the space marked Other on the site supervisor agreement.

4) Professional Meeting Synopsis

- Students are expected to attend one professional meeting during the semester and submit a synopsis of the meeting to the instructor. This synopsis must be 2-3 pages, formatted according to APA 6th edition style, and include thoughtful consideration of the content presented during the meeting.

5) Reflective Paper

- All internship students will submit an evaluative reflection paper by the second class period assessing current skill level, skills to be enhanced during the course, steps that will be taken to enhance those skills, and values or attitudes that have been challenged in the practicum or internship experience to date. This paper should reflect critical
thinking about one’s own process in development as a counselor. Refer to the rubric for specific instructions and a description of how credit will be awarded. Papers that do not meet the requirements set forward in the rubric will be returned for revision.

6) Supervision Paper

- Internship I students will submit a research discussing models of counseling supervision. The paper must include tenets of models discussed as well as multicultural or diversity issues that have been identified in the literature regarding counseling supervision in general and the models presented in specific. Refer to the rubric for specific instructions. Papers that do not meet the requirements set out in the rubric will be returned for revision.

7) Consultation Paper

- Internship II students will submit a research paper discussing models of counseling consultation. The paper must appropriately identify consultation model that can be used with parents, teachers, and/or other mental health professionals. This paper should include current research and incorporate cultural considerations. Refer to the rubric for specific instructions and a description of how credit will be awarded. Papers that do not meet the requirements set forward in the rubric will be returned for revision.

8) Forms and Evaluations

- Complete all required forms, including mid- and final evaluations from site supervisors, via Tevera. Forms must be signed and submitted when they are required. Chronic late submission of forms, including logs, will be addressed in your evaluations, including the Professional Issues and Behavior Evaluation.
- Internship II students will complete the final IDP and meet with their faculty advisor to review their results. The student will attest to this meeting in writing.

9) Ethics and Professional Behavior

- Students must abide by the guidelines and policies described in the Internship Manual and departmental Handbook, as well as by appropriate ethical standards as cited in the ACA, ASCA, TEA, TSBEPC, and/or TSBEMFT Codes of Ethics as appropriate.

Grade Assignment

Grade assignment is based on your performance in all aspects of the class during the entire semester. This includes performance assessments based on formal evaluations by your site supervisor, individual university supervisor, and university instructor. This also includes assessment by your university instructor on the Professional Issues and Behavior Rating Scale
(available in Practicum and Internship Handbook). A student who is asked to leave an internship site for unethical or unprofessional behavior may receive a failing grade and may be asked to retake certain courses and/or seek personal counseling.

Traditional “grades” on assignments are not relevant to this course. Students will earn grades based on the following:

1) Students who adequately complete all class requirements, satisfactory ratings* on the Professional Issues and Behavior Rating Scale, and demonstration of good to excellent competency in counseling skills will earn the grade of A. Work must be submitted on time. Students who do not demonstrate this level of competency in basic counseling skills will not earn an A, regardless of other class assignment performance.

2) Students who demonstrate adequate competency in counseling skills and satisfactory* ratings on the Professional Issues and Behavior Rating Scale, and who satisfactorily complete all other class requirements, will earn the grade of B. Work must be submitted on time.

3) Students who demonstrate adequate competency in counseling skills but have repetitive or serious negative ratings* on the Professional Issues and Behavior Rating Scale or who do not complete one of the other assignments will earn a grade of C or lower. Work must be submitted on time. A grade of C in internship requires re-taking of the course.

4) A student who is asked to leave an internship site for unethical or unprofessional behavior may not receive credit and may be asked to retake certain courses and/or seek personal counseling. In addition, unethical or unprofessional behavior will result in completion of a formal Student Competency Evaluation.

Please Note: In order to receive a grade in Internship I, all supervision hours, both group and individual, must be completed. In addition, all forms and papers must be submitted. Students will not be granted an incomplete for failure to submit forms or failure to complete required supervision hours, and will receive NC in the course. Students in Internship II must, in addition to the foregoing, complete the total 600 hour requirement, including specific requirements for direct hours. Students who do not reach minimal levels of competency may be given the option of continuing their internship experience in an attempt to upgrade skills to an acceptable level. Internship evaluation is an on-going process and consequently final evaluation should not be a surprise to either student or supervisor. Ideally, evaluation will not only focus on exit level skills but also on student growth during the semester; however, students are expected to reach levels of competency appropriate to the course in order to receive a passing grade. Late assignments are unacceptable.

Required or Recommended Readings

*Textbook:
The textbook adopted for this course is Practicum/Internship Handbook (available via BlackBoard or the CNEP Departmental website).

Additionally, students are also required to purchase the software system called Tevera as the method of documentation. The fee for Tevera is $100. This software system will be utilized throughout both internships and students will have lifetime access to their materials.

**Recommended or supplemental readings:**

State Adopted Proficiencies for School Counselors

School Counselor Standard I: Learner-Centered Knowledge
The professional school counselor must have a broad knowledge base.

School Counselor Standard II: Learner-Centered Skills
The certified school counselor applies the knowledge base to promote the educational, personal, social, and career development of the learner as outlined in The Texas Model for Comprehensive School Counseling Programs.

School Counselor Standard III: Learner-Centered Process
The certified school counselor participates in the development, monitoring, revision, and evaluation of a campus based on The Texas Model for Comprehensive School Counseling Programs that promotes learners' knowledge, skills, motivation, and personal growth.

School Counselor Standard IV: Learner-Centered Equity and Excellence for All Learners
The professional school counselor promotes academic success for all learners by acknowledging, respecting, and responding to diversity while building on similarities that bond all people.

School Counselor Standard V: Learner-Centered Communications
The professional school counselor, an advocate for all students and the school, demonstrates effective professional and interpersonal communication skills.

School Counselor Standard VI: Learner-Centered Professional Development
The professional school counselor pursues continuous professional development, demonstrating a commitment to learn, to improve the profession, and to model professional ethics and personal integrity.

TExES Competencies (COE)

Competency 001 (Human Development): The school counselor understands processes of human development and applies this knowledge to provide a developmental guidance program, including counseling services that meets the needs of all students.

Competency 002 (Student Diversity): The school counselor understands human diversity and applies this knowledge to ensure that the developmental guidance and counseling program is responsive to all students.

Competency 003 (Factors Affecting Students): The school counselor understands factors that may affect students' development and school achievement and applies this knowledge to promote students' ability to achieve their potential.

Competency 004 (Program Management): The school counselor understands how to plan, implement, and evaluate a developmental guidance program, including counseling services, which promotes all students' success.

Competency 005 (Developmental Guidance Program): The school counselor knows how to provide a comprehensive developmental guidance program that promotes all students' personal
growth and development.

**Competency 006 (Counseling):** The school counselor understands how to provide effective counseling services to individuals and small groups.

**Competency 007 (Assessment):** The school counselor understands principles of assessment and can use assessment results to identify students' strengths and needs, monitor progress, and engage in planning to promote school success.

**Competency 008 (Collaboration with Families):** The school counselor knows how to communicate effectively with families and establish collaborative relationships that enhance work with students.

**Competency 009 (Collaboration with Others in the School and Community):** The school counselor understands how to work collaboratively with other professionals and with community members to promote positive change and to facilitate student learning.

**Competency 010 (Professionalism):** The school counselor understands and complies with ethical, legal, and professional standards relevant to the profession.

**Course Policies**

**Tevera and Logs**

All practicum and internship logs and evaluations will be completed and signed via Tevera. Students must register for Tevera prior to enrolling in practicum.

**Attendance**

Students must attend all group supervision hours. Much of the learning occurs in the context of the group interaction; thus, full participation in all aspects of group supervision is expected. If illness or emergency requires an absence, the group supervision time must be made up in another section of group supervision with consent of the instructor involved. Students must be on time and remain for the entire class in order to receive credit for the group supervision hours indicated. All electronic devices must be off. If cell phones must remain on due to on-call status, family demands, etc., they must be on courtesy mode and the instructor must be notified in advance. Do not answer phone calls except in case of emergency. Absence from the classroom due to telephone calls will result in a loss of group supervision time.

Students are expected to attend and participate in every class session unless there is a valid emergency/reason. Promptness is expected, as is staying for the entire class. Inform the instructor about legitimate reasons for missing class. If part or all of a class is missed, it must be made up by attending group supervision at another time during the semester. If you must make up a group supervision session, you must obtain approval from your instructor as well as the instructor whose supervision group you would like to attend.

**Group Supervision and Confidentiality**
Participating in group activities involves some level of self-disclosure. A level of trust and openness is needed as a part of the learning process, and it is important that confidentiality be maintained. If you wish to share with others outside the class, discuss only your own reactions or experience, and in no event discuss client information or personal information provided by your peers. **This is an ethical issue and will be treated as such.**

**Communication**

Each TAMUCC student has access to an individual e-mail account assigned to them by the university. This is the primary method through which I will communicate with you throughout the semester. At the beginning of the course, students should make sure they have activated their account and make plans to check the account regularly. Students can expect a response to their questions from me within 48 hours (excluding weekends & university-recognized holidays).

**Late Submissions of Student Work**

All paperwork must be submitted by due dates. Continuing to work in your internship site without appropriate documentation is a serious violation and will be dealt with as such.

**Extra Credit**

As a rule, extra credit opportunities will not be extended in this course. Course grades should be reflective of the proficiency level students are able to demonstrate through all course assignments and assessments. Requests to award additional points without just cause or to assign alternative/additional work for credit will be denied.

**Academic Integrity and Plagiarism**

**TAMUCC Graduate Catalogue (please refer to current version)**

University students are expected to conduct themselves in accordance with the highest standards of academic honesty. Academic misconduct for which a student is subject to penalty includes all forms of cheating, such as illicit possession of examinations or examination materials, forgery, or plagiarism (plagiarism is the presentation of the work of another as one's own work).

Disciplinary action for academic misconduct is the responsibility of the faculty member assigned to the course. The faculty member is charged with assessing the gravity of any case of academic dishonesty, and with giving sanction to any student involved. Penalties that the instructor might possibly apply to individual cases of academic dishonesty include:

- Written reprimand
- Requirement to re-do work in question
- Requirement to submit additional work
- Lowering of grade on work in question
- Assigning grade of "F" to work in question
- Assigning grade of "F" for course
- Recommendation for more severe punishment, such as dismissal from program or University
If the faculty member determines that assigning a grade of "F" to the course is the appropriate penalty and this disciplinary action occurs prior to the deadline for dropping courses, the student forfeits his/her right to drop the course in question.

If the faculty member recommends more severe punishment, such as dismissal from the program or from the University, the faculty member will notify the appropriate chair/college dean, who in turn will notify the Office of Student Affairs. If dismissal from the University is recommended, the Office of Student Affairs will follow its procedure for such cases.

The faculty member must file a record for each case of academic dishonesty, including a description of the disciplinary action taken, along with any materials involved, with his or her college dean, who will forward a copy to the Office of Student Affairs. The office of the academic dean of the college in which the offense took place will maintain records of all cases of academic dishonesty reported for a period of five years. The Office of Student Affairs will also maintain records of such cases for a period of five years. The Office of Student Affairs will inform the Graduate Dean as appropriate.

Any student who has been penalized for academic dishonesty has the right to appeal the judgment or the penalty assessed. Students who wish to appeal an academic dishonesty decision should contact the Office of Student Affairs for guidance on the appropriate steps for initiating the process.

Dropping a Class

I hope that you never find it necessary to drop this or any other class. However, events can sometimes occur that make dropping a course necessary or wise. Please consult with me before you decide to drop to be sure it is the best thing to do. Should dropping the course be the best course of action, YOU must initiate the process to drop the course by going to the Student Services Center and filling out a course drop form. Simply discontinuing your attendance and participation WILL NOT automatically result in you being dropped from the class. June 15th is the last day to drop a course with an automatic grade of “W” this term.

Classroom/Professional Behavior

Texas A&M University-Corpus Christi, as an academic community, requires everyone to respect the needs of others to study and learn in a peaceful atmosphere. Under Article III of the Student Code of Conduct, classroom behavior that interferes with either (a) the instructor’s ability to conduct the class or (b) the ability of other students to profit from the instructional program may be considered a breach of the peace and is subject to disciplinary sanction outlined in article VII of the Student Code of Conduct. Students engaging in unacceptable behavior may be instructed to leave the classroom. This prohibition applies to all instructional forums, including classrooms, electronic classrooms, labs, discussion groups, field trips, etc. Since this is an online course, please practice proper netiquette and respect the experience of all students enrolled in the course.

Statement of Civility

Texas A&M University-Corpus Christi has a diverse student population that represents the population of the state. The University’s goal is to provide you with a high quality educational
experience that is free from repression. To assist in meeting this goal, you are responsible for following the rules of the University, city, state, and federal government. You are expected to behave in a manner that is dignified, respectful, and courteous to all people; regardless of gender, ethnic/racial origin, religious background, age, sexual orientation or disability. Behaviors that infringe on the rights of another individual will not be tolerated.

Grade Appeals

As stated in University Procedure 13.02.99.C2.01, Student Grade Appeal Procedures, a student who believes that he or she has not been held to appropriate academic standards as outlined in the class syllabus, equitable evaluation procedures, or appropriate grading, may appeal the final grade given in the course. The burden of proof is upon the student to demonstrate the appropriateness of the appeal. A student with a complaint about a grade is encouraged to first discuss the matter with the instructor. For complete details, including the responsibilities of the parties involved in the process and the number of days allowed for completing the steps in the process, see University Procedure 13.02.99.C2.01 Student Grade Appeal Procedures. Documents are accessible through the University Rules Web site at http://academicaffairs.tamucc.edu/rules_procedures/ For assistance in the grade appeal process, students may contact the Dean’s office in the college in which the course is taught or the Office of the Provost.

Disabilities Accommodations

The Americans with Disabilities Act (ADA) is a federal anti-discrimination statute that provides comprehensive civil rights protection for persons with disabilities. Among other things, this legislation requires that all students with disabilities be guaranteed a learning environment that provides for reasonable accommodation of their disabilities. If you believe you have a disability requiring an accommodation, please call or visit Disability Services at (361) 825-5816 in Corpus Christi Hall 116.

If you are a returning veteran and are experiencing cognitive and/or physical access issues in the classroom or on campus, please contact Disability Services for assistance at (361) 825-5816.

Statement of Academic Continuity

In the event of an unforeseen adverse event, such as a major hurricane and classes could not be held on the campus of Texas A&M University–Corpus Christi; this course would continue using Blackboard and/or e-mail. In addition, the syllabus and class activities may be modified to allow continuation of the course. Ideally, University facilities (i.e., e-mails, web sites, and Blackboard) will be operational within two days of the closing of the physical campus. However, students need to make certain that the course instructor has a primary and a secondary means of contacting each student.

Case Presentation Format

Students will receive a PowerPoint template for case presentations which will be posted in the Blackboard section for the course. Each case presentation must include the following:

12. Intern name, site name, and date
13. Background information including age, gender, ethnicity, support systems/strengths, previous treatment, assessments completed (if appropriate), other significant information, presenting problems. Do not include identifying information
14. Diagnostic impression including full DSM-5 diagnosis (required for all students) and mental status exam
15. Hypothesis: your ideas/theories about what is going on with client(s) and any ideas you may have about causes.
17. Community resources
18. Multicultural and Social Justice Counseling Competencies (MSJCC): how have you applied the MSJCC to this case?
19. This session: brief description of goals for present session and brief description of what is happening during the clip or audio you will play.
20. What you would like from the group: specific feedback about what we should look for
21. Session: insert your clip or audio at this point in presentation. Note: Do not upload your presentation with the clip inserted!
22. Future direction: where you will be going from this point with your client and with your own growth, learning, and development as a counselor.

Case Presentation Rubric

<table>
<thead>
<tr>
<th>Unacceptable</th>
<th>Acceptable</th>
<th>Excellent</th>
</tr>
</thead>
<tbody>
<tr>
<td>Case presentation appears to be hurriedly assembled with little thought or serious consideration to the requirements; more one or more of the required elements in the case template is missing; information in presentation has significant issues (ex. Treatment goals do not align with theoretical orientation; hypothesis is entirely incorrect); significant spelling/formatting issues</td>
<td>Includes all elements of the excellent presentation, but may not demonstrate as much depth or critical thinking in conceptualizing client issues; theoretical orientation and treatment goals are properly aligned, but may not be best plan of action for presenting client issues; spelling/formatting issues may be present but they are few</td>
<td>Case presentation includes all required elements and reflects thoughtful and thorough consideration in conceptualizing client issues; theoretical orientation and treatment goals are properly aligned and consistent with presenting client issues; there are no spelling/formatting errors</td>
</tr>
</tbody>
</table>
**Transcript Format**

Identify and transcribe ten exchanges with your client(s). In this context, an exchange is a series of back-and-forth interactions between you and your client that are sufficient to give the instructor context about the responses you are making. Provide your intent/skill used with each of your statements within the exchange, describe what happened, and provide an alternate response. The alternate response may have the same intent as your original response or may provide a different direction you could have taken. The format below is provided as an example. Note the requirement of identification of the theoretical model or skills you are attempting to use. If you assert an integrated model, name the models you are integrating.

</thead>
<tbody>
<tr>
<td>Paper appears to be hurriedly assembled with little thought or serious consideration to the elements outlined in the rubric; significant writing and/or grammar issues; spelling issues; lack of flow, making the paper difficult to follow.</td>
<td>Includes all elements of the excellent paper, but may not demonstrate as much depth or critical thinking; may lack a single element of the excellent paper, yet include critical thinking about the elements that are present; some writing, grammar, or spelling issues may be present but they are few; flow of ideas may lack organization.</td>
<td>Reflects critical thinking about one’s personal development as a counselor; considers personal values and attitudes that impact counseling; gives thoughtful consideration to current skill level as well as skills to be developed during the semester; provides a realistic plan for developing skills; realistically identifies challenges. Well written and well organized; easy to follow; includes introduction and conclusion. Few grammar or writing issues. No spelling issues.</td>
</tr>
</tbody>
</table>

Supervision Paper Grading Rubric

This paper should be a minimum of 8 pages in length.
Internship I students only

The supervision paper is a research paper. It must include, at minimum, (a) an introduction, (b) explanation of the discrimination model of supervision and one other specific model, (c) ethical issues in supervision, (d) multicultural and/or diversity issues that should be addressed in supervision, (e) discussion of personal experience of individual supervision based on what has been learned via research for this paper, and (f) conclusion. At least six references should be cited, with two being the ACA Code of Ethics (see section on supervision) and the TSBEP Rules (see requirements of supervisors). The format of the paper must follow APA 6th edition style guidelines. The due date for this paper will be no later than two weeks prior to the end of the semester in order for any required revisions to be possible.

<table>

<tbody>
<tr>
<td>Paper does not address all required elements or several elements are inadequately considered; paper is not written using APA style; insufficient citations are used; writing is not clear or is</td>
<td>Paper addresses all required elements though one or two elements may benefit from additional consideration; flow of the writing may be somewhat unclear in parts; some writing or APA errors</td>
<td>All required elements are present; reflects critical thinking and ability to synthesize information; well-written and well organized; easy to follow; accurate use of the APA 6th edition style</td>
</tr>
</tbody>
</table>
Describe, on the basis of professional literature, a practical consultation model to use when working with parents, teachers, or other mental health professionals. Within the discussion, include references to consultation theories and address (a) consultation stages, (b) cultural considerations, (c) consultation goal setting, and (d) how you will evaluate consultation effectiveness. Next, construct a case study of a hypothetical consultee who brings a client case to you. Create an outline for the consultation following your consultation model. Describe the format and interventions you will use. Identify five community-based resources with brief descriptions that may be of assistance to the client with whom the consultee is working. Papers should be consistent with APA style guidelines, including an appropriate title page, headings, margins, and spacing (no abstract is necessary).

<tr>
<td>Paper appears to be hurriedly assembled with little thought or serious consideration to the elements outlined in the rubric; significant writing and/or grammar issues; spelling issues; lack of flow, making the paper difficult to follow.</td>
<td>Includes all elements of the excellent paper, but demonstrates satisfactory understanding of theories, models, and strategies of consultation; demonstrates satisfactory understanding of community-based resources; demonstrates satisfactory understanding of consultation implementation; some writing, grammar, or spelling issues may be present but they are few; flow of ideas may lack organization.</td>
<td>Includes all required elements; Demonstrates exceptional understanding of theories, models, and strategies of consultation; demonstrates exceptional understanding of community-based resources; demonstrates exceptional understanding of understanding of consultation implementation; well written and well organized; easy to follow; includes introduction and conclusion. Few grammar or writing issues. No spelling issues.</td>
</tr>
</tbody>
</table>
This rating scale includes skills emphasized in practicum and adds skills related to specific interventions, diagnosis, and case conceptualization. Internship students are expected to progress toward “good” or “very good” ratings in each of the skill areas shown.

<table>
<thead>
<tr>
<th>Poor: Skill absent or performance has potential for harm</th>
<th>Unsatisfactory: Some evidence of beginning skill, but insufficient for counseling</th>
<th>Adequate: Evidence of skill but inconsistent in application</th>
<th>Good: Skill generally well performed</th>
<th>Very Good: Skill consistently well performed</th>
</tr>

Professional Issues and Behavior Rating Scale
Department of Counseling and Educational Psychology
(for use by faculty instructor)

In addition to counseling skills, professional counselors should demonstrate appropriate professional behavior as well as the ability to manage themselves effectively and appropriately. Items below are representative of the kinds of behavior practicum and internship instructors and supervisors will consider as part of their overall evaluation of students in practicum/internship. Faculty members may indicate other specific items as needed.

Depending on severity, number of issues, and response to faculty/supervisor feedback, results on this evaluation may impact grade in the course, ability to proceed to the next course in the practicum/internship sequence, and/or the departmental remediation process.

*N/O denotes Not Observed.

<table>
<thead>
<tr>
<th>Poor: Consistently or usually performs in a way that is unacceptable or inconsistent with professional behavior</th>
<th>Unsatisfactory: Often behaves in a way that is unacceptable or inconsistent with professional behavior; however, there is some evidence of growth</th>
<th>Adequate: Evidence of professional behavior at a level consistent with the counselor-in-training’s development; however, there is inconsistency</th>
<th>Good: Professional behavior generally demonstrated</th>
<th>Excellent: Professional behavior consistently demonstrated to a high degree</th>
</tr>
